Re: Epsom and St Helier 2020 to 2030

Dear Mr. Elkeles,

The Executive Committee of Cobham and Downside Residents' Association has discussed and supports your outline proposals for a new facility for acutely unwell patients with improvements to the existing hospital buildings to bring them up to modern standards and make them fit for purpose.

We look forward to being consulted as your ideas are developed in more detail, particularly on the location of services and on the transport infrastructure.

Kind Regards,

Mrs Sue Kilpatrick OBE
Chairman, Cobham & Downside Residents' Association
