

Save St Helier Hospital

We the undersigned support St Helier Hospital to remain on its current site with a fully functioning A&E unit and a consultant led maternity unit. We express our concern that the current 2020/2030 engagement is: 1) the 5th in 18 years, 2) being held when schools are closed, 3) has no criteria and 4) costing money that should be spent on the hospital and patients, consultations have cost £40 Million of tax payers money.
